A Slice of Pie (2009)

My apple pie is sweeter
I use the same cinnamon and nutmeg
The same apples, every time
When you bite into it
Your eyes close
And you relish it with delight
Her pie is peach
And you convince her that you love it
Love her
Just the same
But her peaches are in season
Now, at least
When autumn comes
You come calling
For my sweeter apple pie
And I'm the fool who believes your lies
